

Year 3-6 Science Week 'Big Science Big Fun'

Wednesday 30th May, 2018

Dear Parents and Guardians,

National Science Week this year is from Monday 13th to Friday 17th August. The school theme for 2018 National Science Week, '**Game Changers and Change Makers**', is focussed on the scientists, engineers, technologists, mathematicians, designers and innovators of the past and present. The students in Year 3 to Year 6 will complete a variety of activities with their classroom teacher during that week based on this year's theme.

To celebrate Science Week, all students in Year 3 to Year 6 will have the opportunity to attend a one hour in school workshop '**Big Science Big Fun**' run by Fizzics Education. This workshop will showcase a variety of scientific activities such as gigantic bubbles, hair-raising electricity experiments, levitating beach balls, a giant gyroscope, fire balls, coloured shadows, a flame equalizer and much more! This will allow the students to consolidate some of the concepts taught at school throughout the year.

Date: Friday 17th August

Cost: \$10.00

Final due date for this payment is **Wednesday 27th June**. Payment **will not** be accepted after the due date.

Thank you,

Sujata Symons
Science Specialist
